

Fill the Dangerous Gap in Your Infection Prevention Protocol

New KR615
Germicidal Enclosure

Numerous devices are missed by robot terminal cleanings and germicidal wipes. The **New KR615 Germicidal Enclosure** fills this gap, sanitizing **99.9%** of **C. diff** and **MRSA** in just **48 seconds**.

Protect patients, staff and visitors for just **\$1,995** per unit by treating stethoscopes, scope handles, ultrasound transducers, blood pressure cuffs, call buttons, pillow speakers, EKG wires, glucose meters, cell phones, small tablets, TV remotes and more.

The AUVS KR615 addresses cross contamination every day from Admittance through Patient Release
